TSJ-MBJ110 RCIED Jammer

2020/06/09

Product Description The TSJ-MBJ110 was specifically designed as a broad-band bomb jamming system to counter IED detonation. The unit simultaneously covers the relevant bands of radio frequencies from 20MHz to 2500 MHz. A set of high-gain omni-directional antennas - covertly located in a fiberglass roof extension - transmit the signal up to a combined total output power of 1200 Watts. The operator may choose to jam or open each particular frequency band as required. The TSJ-MBJ110 contains its own independent 10,000-watt AC generator and an integrated "smart active" cooling system. This unit is constructed in a completely covert manner with jamming units, all antennas, plus generator and battery back-up system hidden from view. This unit is designed to ensure continuous effective jamming protection while in transit, and will operate continuously in all weather and road conditions. The TSJ-MBJ110 is simply the best way to defend military convoys and troops from the threat of radio-activated, road-side bombs. The fully integrated broad band jamming system provides the ultimate solution for police and military convoys or VIP protection. Our TSJ-MBJ102 is also a high powered model in this RCIED jammer category. Please enquire for pricing and sales literature.

speech jammer youtube

A signal-jamming theory of predation. there are a lot of shops selling jammers in the market, don't lose track of anything with personal gps tracking devices, they offer 5 lines for 100 a month including all the taxes and fees, ever wanted to use your phone as a gps navigator in the outdoors, most industrial remote controls use the 868 mhz, cellular phone jammers are generally considered illegal by the fcc. find great deals on ebay for cell phone jammer in retail security and surveillance equipment, broad spectrum mobile phone signal jammer, prison jammer functionality more than a cell phone jammer. portable cell phone jammers alligator powerful 10
